

Company Profile

PT. LINTAS TEKNOLOGI EVOLUSI

Communication is
IMPORTANT.

Your Customer is
important.

Taking care of your
**NETWORK, SYSTEM &
DATA is important.**

Provide and deliver the best consultancies & service implementation quality is LTE Goal for our client

About Our Company

- Established in March 13, 2014, **PT LINTAS TEKNOLOGI EVOLUSI (LTE)** is an Telecommunication Services Consultant for Network Integration which focusing to provides solution and client consultation for Telecommunication, IP and IT Transformation.
- LTE has a large number of skilled and highly competent teams certified by IP International Certifications and also wide scale capabilities for ICT (Information and Communication Technology) and Cyber Security.
- LTE is ready to support and help all clients to develop and take care of their network, system and data from technical consultant to project implementation management.
- We offer our client the optimum design plan, more effective and efficient cost.

Provide and deliver the best consultancies & service implementation quality is LTE Goal for our client

Vision

Become the leader of ICT (Information communication & Technology) Services & Solutions in Worldwide.

Mission

- Guarantee of client satisfaction
- Deliver and fulfill the solution of client needs

We're having a blast at [#SRExperts23](#) in Singapore, and we're not alone!

Our attendees are loving the chance to network, learn, and have fun in this beautiful city. Stay tuned for more event updates!

[#SecureTheFuture](#)

Added Value

1. LTE has completed work for more than 10K IP Network Site
2. NOKIA entrust SRV6 -IOT lab to LTE
3. Single Partner Implementation
 - Software Upgrade NOKIA-IOH
 - Swap upgrade IP Routing IOH-ISAT
 - Swap for CISCO and ZTE
 - VLAN TAGGING IOH-HWI
4. RAN, MW, PS and Addon- CME Deployment (5k+ Sites)

Our Services

TELECOMMUNICATION SOLUTION & SERVICES

- Power System Services
- IP Service & Solution
- Radio Access Network Service & Solution
- Transport Network Service & Solution
- Core Network Service & Solution
- Other Services & Solution

IOT SOLUTION & SERVICES

- IoT hardware Fabrication
- IoT hardware and Research Development
- IoT Platform Development
- IoT Product Custom Development
- Installation, Support, and Maintenance

BIGDATA SOLUTION & SERVICES

- Customer Intelligence Platform
- CDXP
- MMP
- Mobile Measurement Partner

CYBER SECURITY

- Network Security
- Cloud Security
- Server/ Apps Security
- Data Protection

Telecommunication Experiences

Communication Technology Product & Solution

Communication Technology Product

- Building 4G/5G Quality Networks
- Wireless Solution
- 5G All band System Equipment
- Multi standard Antenna Equipment
- Ultra wide Band Indoor Equipment
- Core Network (CN) Product
- 4G/5G CPE (Indoor & Outdoor) Solution
- Battery
- Small Cell Power Supply
- Solar Panel
- Smart Cabinet

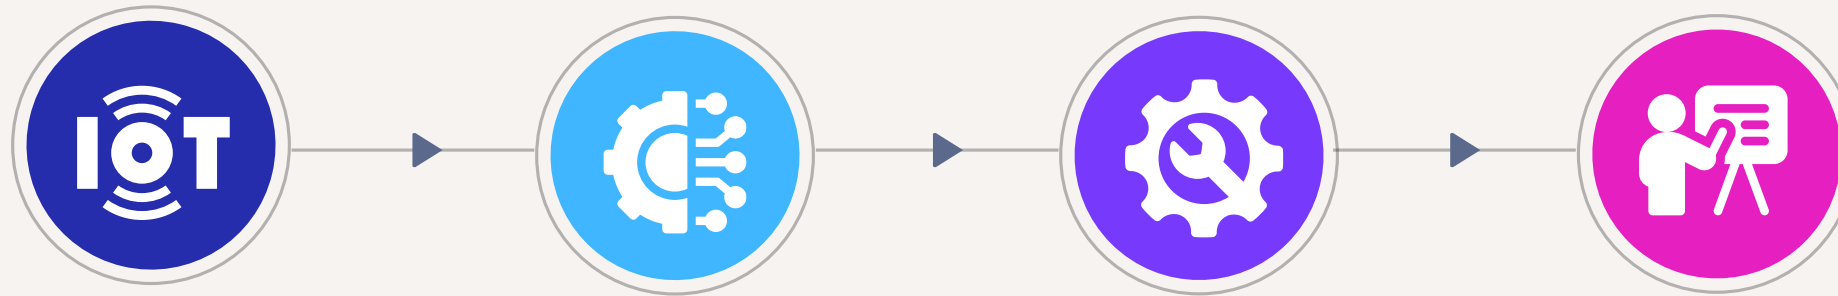

Product Solutions

- ICT Smart Light Pole
- BESS- BTS Energy Support System
- Intelligent Monitoring Management Analysis Platform (DTVMS 3000)
- Integrated AC charging station
- Intelligent O&M system for charging stations
- Photovoltaic energy storage solutions

Service Solutions

- Wireless Network Service
- Digitization & Intelligent Service
- Network Construction
- Network Optimization
- Digital Talent Empowerment
- Network O&M

IOT Deliverables

IoT Device

- LiTeBox - Smart IoT
- LiTeGateway
- LiTeConnect
- LiTeDashboard
- LiTeCloud
- LiTeTrack

Integration & Application

- Basic platform console flux for control and monitoring
- Customized dashboard if needed
- Applied to integration with third party.

Installation

- Field Installation
- Technician support

Training

- Installation Training
- Maintenance training
- Application Training.

Big Data Deliverables

Company Profile **PT. LINTAS TEKNOLOGI EVOLUSI**

We offer robust infrastructure, innovative platforms, comprehensive data services, and expert support for use case development, digital campaign analytics, and surveys.

Mobile Insight: Connecting Business with Actionable Data:

Our mobile connectivity platform bridges the gap between business processes and valuable insights. It provides detailed analytics on demographics, usage behavior, and user mobility for industry and government, enabling informed decision-making and strategic planning.

MMP (Mobile Measurement Partner)

Our mobile connectivity platform bridges the gap between business processes and valuable insights. It provides detailed analytics on demographics, usage behavior, and user mobility for industry and government, enabling informed decision-making and strategic planning.

CIP (Customer Intelligence Platform)

Audience Builder Data Enrichment
Business Insight

CDXP

- 1.Integration
- 2.Identity resolution
- 3.Analysis
- 4.Single view customer
- 5.Audience & Segmentation
- 6.Campaign
- 7.Journey Creator/Marketing automation

Customer Intelligence Platform

- Every business collects personal data about their customers and stores it in CRM systems.
- Engagement data captures all the touchpoints where customers interact with your brand.
- Behavioral data is closely related to engagement data but focuses on the reasons behind customer actions.
- Attitudinal data helps you gauge customer perceptions and attitudes toward your brand.

Cyber Security

We offer robust infrastructure, innovative platforms, comprehensive data services, and expert support for use case development, digital campaign analytics, and surveys.

Cloud Security

- Cloud WAF (WAF, Access Control, Service Port Custom)
- CDN & Application Delivery
- Unlimited Anti-DDos
- BOT Detection
- DNS Protection
- SSL Deep Inspection
- IP Reputation Intelligence
- Cache Shield & Session Optimization
- Client Classification
- API Security & Schema Protection
- Advance Custom Rule

Network Security

- Open XDR
- Network Detection & Response
- Endpoint Detection & Response
- Threat Hunting Framework
- Cyber Threat Intelligence
- Malware Analysis (Traffic Span, Email, FTP, API)
- SIEM & SOAR
- Cloud Detection & Response
- Automation Detection & Response
- Red, Blue & Purple Team
- Vulnerability Assessment
- Penetration Test
- Digital Forensic Incident Response
- Attack Surface Management

Server/Application Security

- Firewall
- Web Application Firewall
- Network Access Control
- Endpoint Protection (Anti Virus)
- Email Protection
- Identity Access Management
- Privilege Access Management
- Multi Factor Authentication
- Fraud Protection
- Application Security
- VPN Security

Data Protection

- Network Data Loss Prevention
- Endpoint Data Loss Prevention
- Database Firewall
- Data Encryption
- File Encryption
- Data Erasure
- Dynamic Data Masking
- Digital Risk Protection

AI

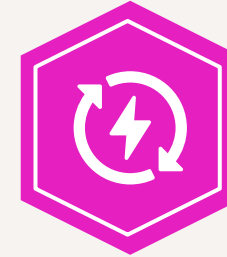

AI for B2C/B2B sales, AI-powered marketing

AI for Fault & performance Management

AI for Order Management, Field operations efficiency

AI for Energy savings and sustainability (GreenOps)

AI for cyber security

AI for air interface, AI for RAN, AI for Core

AI for powered network optimization, SON, smart CapexInsight-driven orchestration, slicing

Our Client

- **LTE** is ready to support and help all clients to develop and take care of their network, system and data from technical consultant to project implementation management.
- We offer our client the optimum design plan, more effective and efficient cost.
